

EMIS Clinical Coding

Duration

Up to 3 hours

Who is this course for?

This course is aimed at administrative staff that enter clinical codes in patient records or want to learn more about coding

Aim

To familiarise learners with clinical coding, SNOMED CT and data quality in EMIS Web

Learning Objectives / Outcomes – at the end of the session learners will be able to:

- Understand the principles of read codes in EMIS Web
- Develop knowledge of what coded information is used for after being entered into EMIS Web
- Be able to use the course information to adhere to data quality guidelines
- Understand the transition from read codes to SNOMED CT including key changes and benefits
- Practice both Read code and SNOMED CT searching methods using the EMIS Web code browsers
- Understand the coding structure including hierarchy, synonyms and relationships
- Have knowledge of external resources and how they can further develop understanding of coding and data quality
